XL 103 CALGARY HERALD
SYNOPSIS
Written by an Alberta-born and educated playwright and set in Edmonton during a heat wave, “And Then, the Lights Went Out” is a chilling saga of dames, deceit and writer’s block. Staring down an impossible deadline, author Thomas Levine is starting to unravel. Whether brought on by the heat or the stress, the fictional characters from his detective novel-in-progress are dropping in on him in his apartment, offering literary advice and drinking all of his liquor. With the publisher breathing down his neck and the landlady clamouring for the rent, Thomas will have to find some way to pull it all together and write himself out of this mess… before the lights go out.

THE SETTING
The Place: Thomas Levine’s 8th-floor apartment in downtown Edmonton during a summer heat wave.

...And Then, The Lights Went Out
**Director’s Notes**

I am so excited to have the privilege to be directing this brand new Canadian piece by Alberta playwright, Andy Garland. It is a wonderful story set in the present but with a 1940s film noir tone. In mystery writer Thomas Levine’s world, there are two realities: his boring everyday existence, set in his crappy Edmonton apartment filled with the constant clack of the typewriter, in contrast with his exciting and dangerous escapades brought to life on stage through the characters he creates for his crime novels set in 1940s New York.

When Thomas can’t finish his 7th book in the series all the usual suspects come out to play to help him meet his deadline. The hard-nosed detective, the femme fatale, and the villain, just to name a few. Problem is, Thomas is the only one who can see and hear them. Not his cranky landlady, nor the pretty girl next door.

I hope you enjoy bouncing between the two very different worlds over the next couple of hours. I know I did when putting them together for you! You never know, you might just fall for the shady dame or end up in a gun fight.

Enjoy the show!

Liz Gilroy

“Even though his office is based in Calgary, Cecil has spent numerous hours with us here in Lethbridge to ensure we are confident with our choice in home plans. We have been very pleased with the caring yet professional approach he takes with his job. He has also encouraged us to be as involved in each stage of building as we can. From past experiences we can honestly say we have not always been treated so graciously or professionally. Cecil has made this experience both fun and exciting.”

Written by Howard Pechet & Randy Johnson

Blending British blues revival and California folk-rock, Fleetwood Mac, having achieved great success with their previous albums, was reshaped by the addition of Stevie Nicks and Lindsey Buckingham. In 1977 “Rumours” became the best-selling album ever for Warner Brothers and Fleetwood Mac became a household name in the English speaking world. It is said that 1 out of every 3 Canadian homes owned the album. We take you back to that era with the music of the great groups that both inspired and were influenced by Fleetwood Mac, such as Jefferson Airplane and Genesis.
